EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Mion on 10/31/05.

The application has been amended as follows:

IN THE CLAIMS:

Claim 9, line 1, "3" has been changed to --4--.

Claim 12, line 3, --said-- has been inserted after "by".

2. The following is an examiner's statement of reasons for allowance: a receiving apparatus is disclosed. The closest prior art, Zhodzishsky et al US Patent No. 6,493,378, recites similar apparatus. However, Zhodzishsky et al does not teach or fairly suggest "in test phase, said code generator is adapted via said control means to generate a replica of a second repetition code shorter than the first code for correlation operations with intermediate test signals modulated by the second code of shorter repetition length than the first code and supplied to the correlation stage so as to perform a test representative of the correlation stage in closed loop operation more

quickly than with signals modulated by the first code" are neither anticipated nor rendered obvious by Zhodzishsky et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean B. Corrielus whose telephone number is 571-272-3020. The examiner can normally be reached on Maxi-Flex.
